INNOVATIVE

Fastest resurfacing treatment solution with bigger beam diameter (200 μ m & 350 μ m) and scan size (4 x 10 mm & 6 x 10 mm). Tunable treatment, from mild to aggressive, provides customized outcomes.

EFFECTIVE

ULTRA is the only device available in the market that can deliver the maximum power of 20 W with a Top-Hat beam profile for the fastest and most incomparably consistent treatments possible.

INTUITIVE

Easy-to-navigate display provides valuable feedback with selectable Coverage Rate, Total Energy delivered per treatment session, Density and Interval options.

DEPENDABLE

ULTRA rebuilds glowing, healthy and elastic skin through gentle, nonablative fractionated treatments with minimal cost of ownership and no shot limit per procedure.

A SMART LASER FOR ALL PATIENTS

OPTIMIZED & INTELLIGENT NONABLATIVE FRACTIONAL LASER

Dramatically different from traditional resurfacing lasers, LaseMD ULTRA™ rebuilds glowing, healthy skin through gentle, nonablative fractionated treatments. With treatments that are tunable from mild to aggressive and extremely cost-effective, LaseMD offers customized outcomes with virtually no downtime for all patients, all year round.

HIGHEST POWER AVAILABLE

ALL—NEW LaseMD ULTRA can deliver 20 W of power for the fastest, most consistent treatments possible. Furthermore, the Top Hat beam profile also provides a predictable clinical effect.

INTUITIVE GRAPHICAL USER INTERFACE

Easy-to-navigate, LaseMD ULTRA's new display provides the user with valuable feedback so practitioners consistently achieve excellent results.

BEST CHOICE FOR THE COSMECEUTICAL DELIVERY

LaseMD AMPOULE SERIES

The LaseMD ampoule series is uniquely designed for the CDS (Cosmeceutical Delivery System) approach which allows physicians to increase treatment efficacy.

* Some ampoules may not be available in some countries.

LaseMD BIO CELLULOSE CREAM MASK

The natural coconut-based cream is excellent for after treatments and gentle enough to be used daily to restore moisture to the skin.

LaseMD CREAM

LaseMD Cream is designed to enhance the absorption rate of effective molecules after treatments with its extraordinary multi-layer emulsion technology.

POWERFUL & RELIABLE

ULTRA is the only device available in the market that can deliver a maximum power of 20 W with a Top-Hat beam profile for the fastest and most incomparably consistent treatments possible.
