EVOLVE TITE

Discover the younger looking appearance you've always wanted without the downtime or scars associated with invasive surgery.

CUSTOMIZABLE HANDS-FREE BODY TREATMENTS

Remodel larger body areas simultaneously to improve the appearance of your skin.

WHAT IS EVOLVE TITE?

Evolve Tite delivers an innovative hands-free aesthetic solution to remodel your skin. It is a quick and easy treatment that can be done over lunchtime and is conducted the comfort of a treatment room.

Treatments can be customized and tailored to address your specific needs so the end result is a slimmer appearance with no downtime. Multiple body areas can be treated simultaneously leaving you with a more natural looking you.

HOW DOES EVOLVE TITE WORK?

Evolve Tite leverages clinically proven radiofrequency technology to deliver volumetric heat to the skin's subdermal layers. Treatments are customized to your specific needs.

Evolve Tite was developed based on the clinical success of the proprietary A.C.E. (Acquire, Control and Extend) technology. A.C.E. technology targets deep within the skin to ensure that no areas are under, or over-treated, thereby maximizing results and providing consistent outcomes.

HOW SAFE IS THE TREATMENT?

Evolve Tite is recommended for individuals who are looking for a non-invasive skin treatment to address specific areas that require remodeling. Tite can improve blood circulation and will provide a natural looking younger appearance. It is a very safe and effective treatment that delivers exceptional results.

Evolve Tite is designed with a Patient Call Button so you can easily pause your treatment at any time and have clinic staff make adjustments to ensure your comfort.

DOES THE EVOLVE TREATMENT HURT?

Most clients find Evolve Tite comfortable. During your treatment you can expect a warming of your skin similar to a hot stone massage. As the radiofrequency penetrates the dermal layers patients typically notice a reduction in the folds of the skin leading to a younger looking appearance.

HOW MANY SESSIONS ARE REQUIRED?

Your practitioner will recommend the optimal number of sessions to be performed based on your personal objectives. Treatment times and frequency will be specifically tailored to obtain the optimal results. You will begin to see gradual improvements in the treatment area following your first few sessions.

WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?

There is absolutely no recovery period or downtime associated with Evolve Tite. It is a quick and painless treatment that can be done over your lunchtime, allowing you to return to your normal activities immediately. Patients will notice redness and warmth in the treated area which will subside after a few hours.
